

December 7, 1985

Dear Josef,

This is just to send you Elisabeth's and my greetings for a pleasant Christmas holiday and a happy New Year.

Many thanks for your offprint and the text of your Graz address, so far I have only read (and liked) the latter. We have more or less decided to stay in North America the coming summer, probably making a tour of the more interesting and beautiful parts of Canada. Our main news is that we bought a compact disc player and as a result listen to much better (and more) music than before. Incidentally, I was much too lazy to buy a manila envelope and go to the post office to send you an old copy of Ovation, so instead I got you a subscription, which I hope will start reaching you soon.

With best wishes once again,

Yours ever,

*Tilo + Elisabeth*

*Season's Greetings*
