

Tax allowances.

On my understanding
it is a beggar my neighbor
remedy.

Therefore, if all do it more
or less at the same rate
the effect is nullified.

It is the law of measure
where ~~might~~ ^{would} produce splendid
results at first, but in the
course of time would tend
to become useless, not only
because the others ~~imitate~~ do it also,
but also because the continuing
increase in requests for a free
grant & grant-outs in work-ups
