## Deal Mania, The Restructuring of Corporate America.

American Business Establishment has not  
seen such action since J.P. Morgan merged  
three industrial empires into the world's  
first \$1 billion corporation, U.S. Steel trust,  
back in 1901.

In 1986 some 4000 of America's largest companies  
incl. US Steel descendant USX Corp  
will spend nearly \$200 billion  
to transform themselves.  
That is four times the amount spent  
just 3 years ago.

Beneath the broiling controversy lies the  
pressure of work to shrink, streamline  
the bloated ~~bureaucracy~~ <sup>dis</sup> <sub>2</sub> <sup>business</sup>  
"corporacy"

If the markets are the driving force in the restructuring,  
it is the raiders who set it in motion.
