Bredly "Plan": Debt solution coupled  
with granting of second place to  
Japan in the Monetary Fund.

Plan quite vague, Administrators  
conferred about it. Latin American  
disregarded.

My idea: Debt might be merged in the  
Monetary Fund like the Old British  
Wear Debt (Fiduciary Issue) in the Bank of England  
SDJ's.

EC. Monetary Union.

Consequence also for Italy:

Stephens on account of much wage growth -  
wage discipline enforced via a tremendous  
depression in the region.
