

Curo sclerosis

on U.S. Terms

(which kills industrial
countries)

Is it not a consequence of interest policy
(the cash flow of Sweden etc)

Why did US escape it? Tech. adv.
indebtedness, commercial mortgages

Mem. the whole question has to be considered in connection
with Eastern European turn-out

my not EC; my idea is start from existing forms
of cooperation in transport, communication, energy,
and extend them, espec. to long term planning,
mem fields: transport, communication, energy, environment,

But the location of infrastructure is of
profound influence for industrial development.
