

x x x

Amongst the most important to consider

Tricky on the basic difference in attitudes to problem of distribution & capitalisation between

business and scholars, in Koster's view

is another business in the products, not in markets of product

Labour market

more with the economic theory market prices

Labour value, Connected with the sector for a measure not dependent

on the market

(like Ricardo) - Smith had made sense,

independence

Permitting

The market prices may be ~~as~~ <sup>independent</sup> measured or compared with Smith's prices;

but not those from
