

I have to admit the existing heterogeneity
of a kind of value theory

Wider world
deductive reasoning
System - 2

There are two abstract
ideas simpler of ideas in mass,
(One is the speculations about value,
the other the department scheme

The first has used its
repro success in Straffen

The second in the election.

ask: how can it function?

I think there are two kinds
of economics, which are non-competing:

The one wants to explain the econ. world
(in a quasi-scientific fashion)

← The other constructs an
economic world on certain
abstract principles, a kind of utopia
in a very formal + abstract shape;
it would be useful for a plan, for
any controlled economy. It may be regarded

as a Gedankenexperiment.
