

What is long run relationships? ²²

" " long run profit margins
(break-up) ²

1. Does he look back to the performance of a number of years? ²²
2. A formulation what says he returns at a certain white rate, ~~growth~~ is based on the value known the "trend value" of the price level (if it is based on money wage).
Then is no growth theory in itself & stay but implicitly? Since to give a sense for slowy or it may imply also a sense for richness and that may explain finally etc.
The difference ~~is~~ between stationary state and growth ^{is}
